

Baraboo is a Zone 4 climate and types allow for some good street and park tree planting selections. Sound choices for **larger** trees include:

swamp white oak (*Quercus bicolor*) *in moderation
hackberry (*Celtis occidentalis*)
bur oak (*Quercus macrocarpa*) *in moderation
American linden (*Tilia americana*) 'Redmond', 'Fastigiata'
elm (*Ulmus* spp.) 'Accolade', 'New Horizon', 'Discovery'
Kentucky coffeetree (*Gymnocladus dioica*)
ginkgo (*Ginkgo biloba*)
honeylocust (*Gleditsia triacanthos*)

Good **medium** selections include:

flowering pear (*Pyrus* spp.)
Amur cork tree (*Phellodendron amurense* 'macho')
river birch (*Betula nigra*)
amur chokecherry (*Prunus maackii*)
lacebark elm (*Ulmus parvifolia*)
horsechestnuts (*Aesculus* spp.)

Smaller sites can be filled with:

Japanese tree lilac (*Syringa reticulata*)
serviceberry (*Amelanchier arborea*) 'Autumn Brilliance', 'Princess Diana'
hophornbeam (*Ostrya virginiana*)
American hornbeam (*Carpinus caroliniana*)
crabapple (*Malus* spp.)
 white cultivars: 'Spring Snow', 'Snowdrift'
 red/pink cultivars: 'Prairiefire', 'Red Jade', 'Red Barron'
Hawthorn (*Crateagus* spp.)
Turkish filbert (*Corylus colurna*)
Plum & cherry varieties (*Prunus* spp.)

Small trees only should be planted under power lines. Do not plant wide trees, such as the hawthorn on narrow terraces. They will grow out into the street. Additionally, do not plant trees too close to traffic signs and intersections. They will eventually grow and block these areas. Try to stay at least 40' away from these areas. Lastly, be sure not to plant trees too closely together.
